

Sierra Chart Setup Instructions 3

Setup Instructions Step 3

Sierra Chart is simple to get started with and simple to use. For more details, click on each step.

- [Step 1 - Download](#)
- [Step 2 - Create Your Account](#)

- **=> Step 3 - Supported Data and Trading Services**

- First, it must be understood, that Sierra Chart is fully self-sufficient and does not require utilizing it with any external Trading or Data or broker service for the purpose of evaluation and if you are not performing live trading. During a free trial, connection to these services is not supported. Only Sierra Chart provided market Data and Trading services can be used during a trial.
- Sierra Chart includes and has support for various **Data** and **Trading** services. For complete information, refer to [Supported Data and Trading Services](#).
- However, by default Sierra Chart is configured to have access to all of the included **Data** services. No additional configuration is needed. Therefore, it is recommended at this time to skip this step and proceed to [Step 4 - Getting Started Tutorial](#).
- Sierra Chart provides a [Trade Simulation Mode](#) which can be used. However, if you want to use the **Trading Evaluator - Delayed** service, then refer to [Simulated Futures Trading Service](#).

This provides a server-based simulation environment for futures and Forex trading. The **Trade Simulation Mode** which you have access to in Sierra Chart without using the **Trading Evaluator** is a simulation feature within Sierra Chart. It is not server-based.

- [Step 4 - Getting Started Tutorial](#)
- [Step 5 - After the Trial Activate a Service Package](#)
